Virginia Oyster Interests.
Capt. J. B. Bayler, of the United
States coast survey, who was detailed
to make a survey of the natural oyster
beds, rocks and shoals of the Virginia
waters, has just submitted his interest-
ing report to Governor McKinney. In
the outset he calls attention to the
great importance of the oyster indus-
try by the simple statement during the
past ten years \$20,000,000 have been
realized from the sale of Virginia oys-
ters, a sum more than one-third a
great realized from the sale of the
wheat crop.

He then states that he boarded the
schooner Drift, July 21, 1892, and began
the work of his survey in Tangier
sound. He pushed the work vigorously,
and by October 31 all natural oys-
ter beds of the Chesapeake bay side of
Accomac county, those of James river
and its tributaries, those of Elizabeth
river and its tributaries and those of
Mathews county had been surveyed.
The field work was then closed for the
season. The winter and spring were
utilized in computing the field notes
and preparing charts of the field.
The result is summed up as follows:
In Tangier sound, 4746 acres; Pocomoke
sound, 28,528 acres; Norfolk county,
6,944 acres; Mathews county, 5,324
acres. In June, 1893, the work was
resumed in the Rappahannock and
pushed till October, when the field
work of the whole area of the Chesape-
ke bay was completed. The coast
beds of Accomac and Northampton are
yet to be surveyed.

In the Rappahannock and tributaries
the survey shows 34,393 acres of natural
oyster beds; in Pocomoke sound, 5,962
acres; in Milford Haven, 477 acres; in Chesape-
ke bay, off the coast of Mathews
and the mouth of the Rappahannock,
13,623 acres; in York river, 4,040; in
Princess Anne county, 1,400; on Chesape-
ke side of Northampton, 800 acres;
in Northumberland, 11,500 acres;
in Westmoreland, 439 acres; in Gloucester,
2,701; total area of natural oyster
beds, &c., in Virginia, 149,573 acres.
All natural oyster beds have been sur-
veyed from marked shore stations.
These surveys do not include beds on
the Atlantic coast of Accomac and
Northampton. Now that the survey
has been made, says the report, the
planter can no longer move his bound-
ary stakes out on a natural bed with-
out the fact being easily established,
and the planter can now know in ad-
vance just what bottoms in Virginia
waters are open to him, and will be
perfectly secure in his title.

The advantage of the survey to the
State is readily seen in the statement
that when the State of Connecticut did
likewise the yield of oysters increased
from 336,450 bushels in 1880 to 1,509,-
367 bushels in 1888. In 1889 only 831,-
305 was realized from the sale of oys-
ters from the natural rock, while cul-
tivated oysters brought \$1,040,372. In
conclusion, Captain Bayler makes a
practical suggestion as to the culti-
vation of oysters and how the State
may best promote that industry.

INTERNAL REVENUE COLLECTIONS.

—The commissioner of internal revenue,
Mr. Joseph S. Miller, has com-
pleted his report, and from it the fol-
lowing is of interest to Virginians. Vir-
ginia—Aggregate collections: Second
collection district, \$1,864,252.16; sixth
collection district, \$1,048,296.12; num-
ber of factories, 217; pounds of tobacco
used for cigars, 2,309,459; pounds of to-
bacco used for cigarettes, 1,974,275
cigars manufactured, 730,836,613; cigar-
ettes manufactured, 150,314,792; in
aggregate quantity of leaf tobacco, &c.,
used during the year ended December
31, 1893, amounted to: Leaf, 48,131,-
324 pounds; scraps, 574,904 pounds;
stems, 17,429 pounds; licorice, 3,234,-
072 pounds; sugar, 2,290,724 pounds;
the aggregate quantities of the different
kinds of manufactured tobacco pro-
duced during the calendar year ended
December 31, 1892, were: Plug,
34,088,870 pounds; smoking
3,588,559 pounds; snuff, 776,517 pounds;
on hand, 8,246,394 pounds; total to be
accounted for, 46,651,329 pounds; on
hand unsold, 8,170,199 pounds; ex-
ported in bond, 8,560,583 pounds; sold,
29,930,547 pounds; stamps required for
sales, \$1,795,832.82. The number of
distilleries registered and operated in
1892 were: sixth district, 65 stills de-
stroyed. The total amount of distilled
spirits gauged during the fiscal year
ended June 30, 1893, were—1892, 1,838,-
769 gallons; 1893, 1,180,183 gallons.
The number of gallons of spirits recig-
ed during the fiscal year ended June
30, 1893, were 756,691.06 gallons. The
receipts under the oleomargarine law
during the fiscal year amounted to,
Second district, \$2,072; Sixth district,
\$1,136. There are five wholesale oleo-
margarine establishments in Virginia.

Until recent years alcohol was gener-
ally used for preserving specimens of
fishes by naturalists, but other things
are now taking its place. The best of
these appears to be a solution of acetate
of soda, which is spread on the fish like
salt, each layer of the fish being covered
with it in turn. Prince Henri d'Or-
leans used this preservative during his
travels in Indo-China and found it ex-
cellent.
